Use your Coding Skills to Help Improve our Federal Hiring Processes!

Project Title	Use your Coding Skills to Help Improve our Federal Hiring Processes!
Project Summary	Come work with the NPS and create a hiring decision aide tool that will help hiring managers understand and utilize the various hiring pathways available to them and help us create the next generation of inspired public servants. Create fact sheets promoting and summarizing hiring authorities.
Country	United States
Country/Region of Focus	United States

Project Description

This project involves developing computer code to create a decision aide tool. The tool will involve a hiring manager answering a series of yes/no questions. The results of the questionnaire will be coded to show a list of the various hiring authorities/pathways a hiring manager could choose based on the types of experience they are looking for. The list of hiring authorities will then be linked to other information. In addition, the project involves creating succinct written summaries of 2-4 hiring authorities. While doing so, learn about the various federal hiring authorities available and help enable hiring managers to choose new hiring pathways thereby diversifying our workforce.

Required Skills or Interests

Skill(s)
Coding
Design thinking
Editing and proofreading
Research
Software development
Website design
Writing

Additional Information

To see an example of the type of decision aide we are looking to create, see this link https://hru.gov/Studio_Recruitment/HT_Hiring_Decision_Tool.aspx
